Fail, J. P. and Grau, G.
FAN FILTERS. Presented at the European Association of Exploration Geophysicists, Meeting (no. 23) Wiesbaden, 12-14 Dec 62. [37p] 4refs
Order from SLA $3.60 TT-64-10970

Trans. of Geophysical Prospecting (Netherlands) 1963, v. 11, no. 2, p. 131-165. (Abstract available)

DESCRIPTORS: *Filters (Electromagnetic wave), *Electric filters, *Signal-to-noise ratio, Seismic waves, Geophysical prospecting.

The theory of filters that may separate events with different apparent velocities (fan filters) is studied. The filtering operator is determined from the two-dimensional spectrum (in frequency - wave number space) of such filters. Practical use of fan filters for signal enhancement is described, as well as possible changes in field techniques, which might be necessary for convenient and efficient fan filtering. (Author)
